

# Silent Angel GX

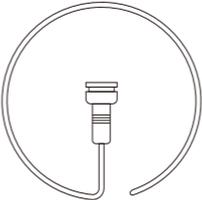

### Package Contents

GX x 1

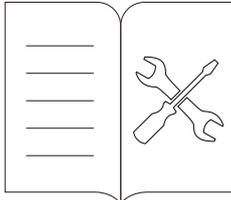

Power Cord x 1

Clock Cable x 4

Quick Start Guide x 1

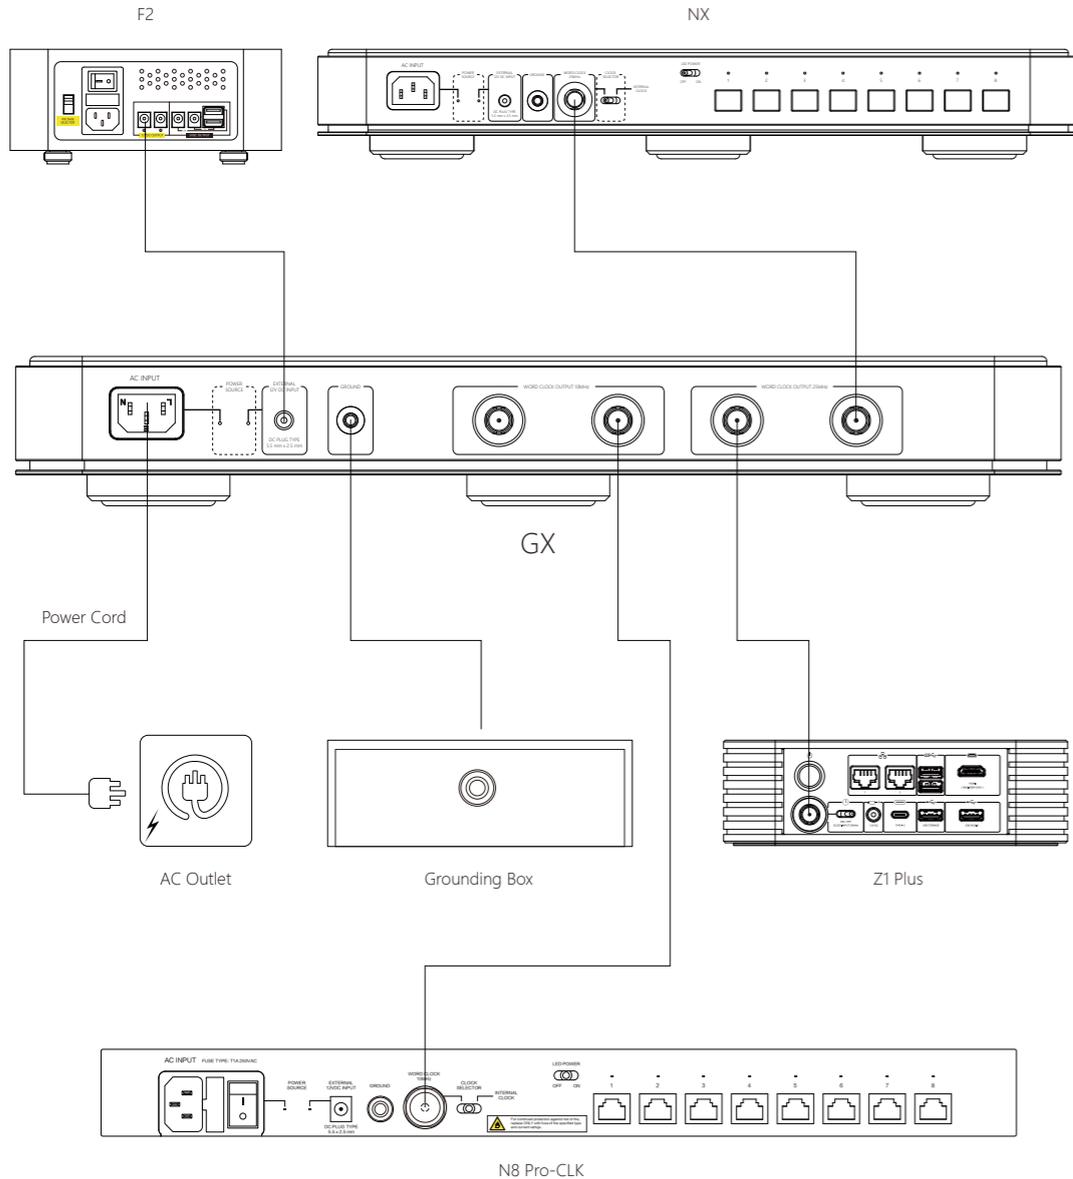

Warranty Card x 1

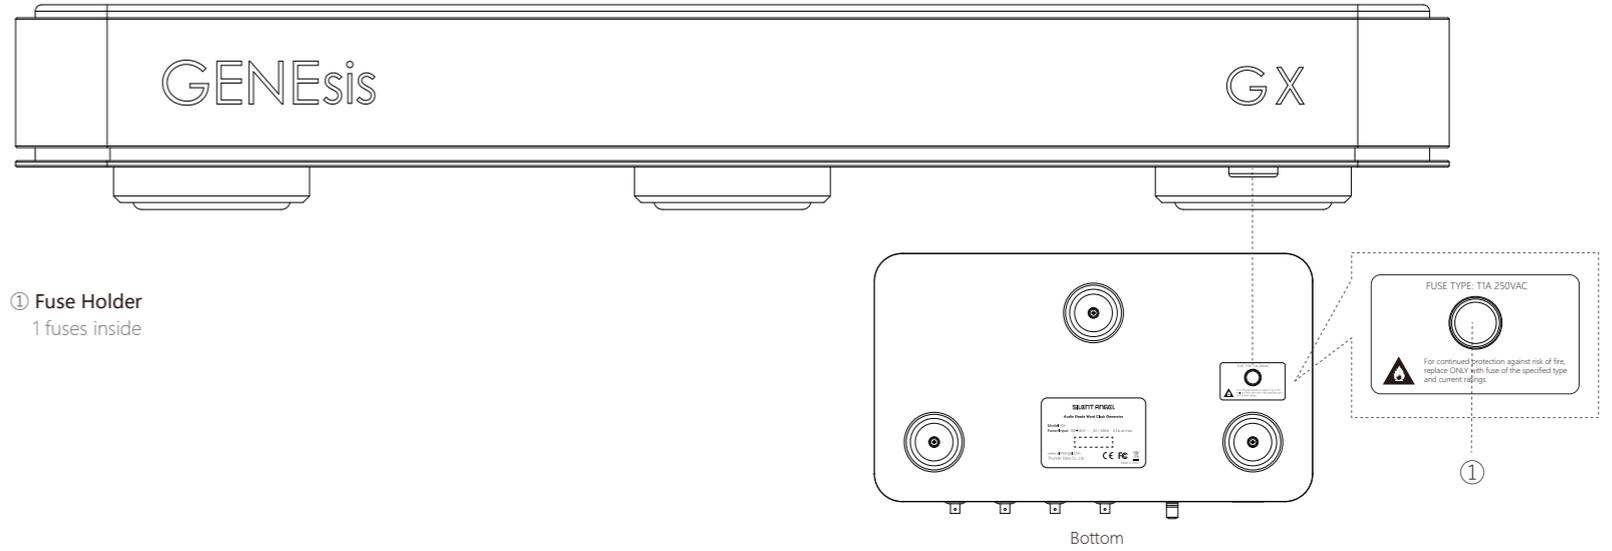

## Product Features

- Four clock outputs: Four digital clock outputs.
- Gold-plated ports: Premium gold-plated housing ports enhance transmission quality.
- Two different frequency: Two 10MHz outputs and two 25MHz outputs.

## Connection Diagram

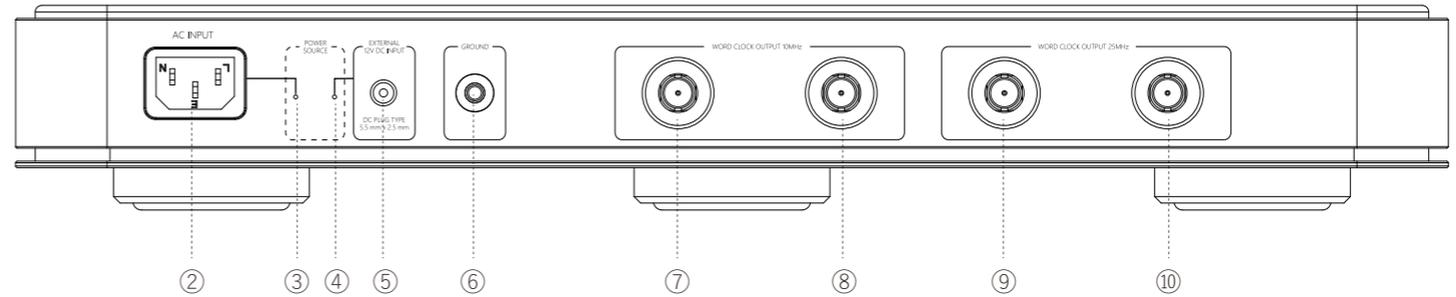

## Front Panel

- ① Fuse Holder  
1 fuses inside

## Rear Panel

- ② AC Input  
AC power input

- ③ AC Power Indicator  
When the AC power supply is connected and the output is good, the green light is on  
When there is no AC power signal, no indicator light

- ④ DC Power Indicator  
When the DC power supply is connected and the output is good, the green light is on  
When there is no DC power signal, no indicator light

- ⑤ DC Input  
5.5mm x 2.5mm DC 12V DC power input port (can be connected to Silent Angel F2 linear power supply)

- ⑥ Grounding Port  
Connect to grounding box

- ⑦ Clock Output Port 1  
The output frequency is 10MHz

- ⑧ Clock Output Port 2  
The output frequency is 10MHz

- ⑨ Clock Output Port 3  
The output frequency is 25MHz

- ⑩ Clock Output Port 4  
The output frequency is 25MHz

\* When both DC and AC power are connected, the DC power input will be used and the DC power indicator lights up
