

# 1 Fixed

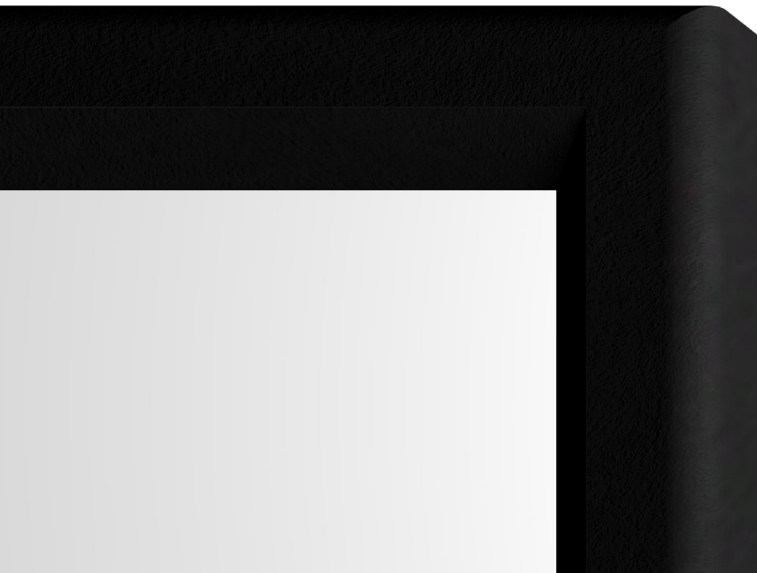

Get The Sensation

512.832.6939 | [sales@screeninnovations.com](mailto:sales@screeninnovations.com)

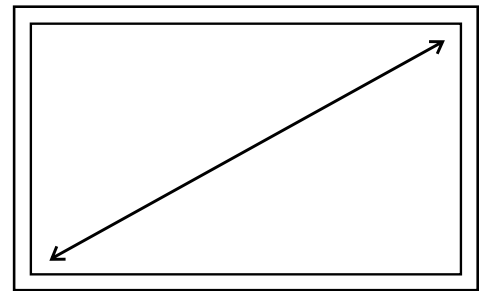

## HDTV Ratio

1 Series Fixed is available in the most popular aspect ratio, 16:9, which is the same as most flat-panel televisions. That means that you can have up to a 133-inch TV and get the big screen experience for less than you think.

## Big Screen And Small Price

We couldn't skimp on the quality when it came to engineering our value oriented 1 Series Fixed. We had to have both quality and affordability in one package, and to accomplish this, we designed a system that could be both built quickly, but also with the same high-quality standards we design into every product we make.

133" in 16:9

### Size

Max: 133" (3378mm) in 16:9

Standard sizes only

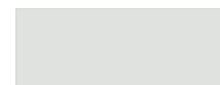

### Aspect Ratios

16:9

### Installation | Adjustment
