

RS250 wireless loudspeaker system

- The RS250 Wireless Loudspeaker System is our most advanced and most powerful home audio wireless speaker system.
- Includes a variety of built-in casting technologies: Spotify® Connect, TIDAL® Connect, Apple® AirPlay® 2, Bluetooth®, Chromecast, and Roon, letting you easily stream to the RS250 from your favorite streaming apps on your smart devices. Does not require any dedicated control app.
- Uses Bluetooth 5.0 with support for high bitrate Advanced Audio Coding (AAC), Qualcomm® aptX™ HD for hi res audio playback, and Qualcomm aptX Low Latency for improved audio transmission speed.
- 650 Watts of total power that is delivered to two 4" x 6" woofers, four 2" (50mm) midranges, and two 3/4" (20mm) tweeters.
- Woofer enclosure has been reengineered to reduce distortion, and a more user-friendly bass control has been added that can be used to fine tune the low-end performance. Wired subwoofer output also included.
- Features a pair of our new, quick responding illuminated digital output meters.
- Compatible with TIDAL HiFi Lossless Quality playback. Supports file streaming of up to 24-bit/192kHz. Roon Ready endpoint device. Google Assistant compatible.¹
- Includes: HDMI Audio Return Channel (ARC) input for better TV sound than soundbars can provide; optical input; a Moving Magnet phono input; a 3.5mm AUX input; and a 1/4" headphone jack.

1) Requires use of a third-party Google Assistant device with voice input (sold separately). The RS250 and Google Assistant device must be on the same network.

For All Your Music Streaming Needs
