

YG ACOUSTICS

## XV 3

Our Reference range offers the very best that can be achieved in accuracy and musicality. We are honored that these models are some of the most awarded loudspeakers in the world. They combine advanced materials with cutting edge science and engineering. Designed without compromise, their singular aim is transporting listeners into the heart of the music.

XV 3 is an extreme, four-tower loudspeaker system which will redefine what you think is possible: the finest micro-details placed exactly in a broad and deep holographic audio space; unmatched scale and faultless timing. XV 3 is an entirely new sonic benchmark. With the revolutionary Lattice tweeter, nine BilletCore drivers and our most extreme implementation of the Ultracoherent crossover, it is an acoustic, scientific and engineering marvel.

The Reference speakers are structured from high-grade aerospace aluminum, machined in-house to an incredible precision. The speakers are meticulously hand-built by experts in our Colorado workshop.

The Reference 3 models include new technologies and design innovations based on novel theoretical models, detailed multi-domain simulations and thousands of hours of listening. The end result: loudspeakers which convey every nuance of emotion, each musical cue from the tiniest micro-detail to the visceral impact of the most thunderous crescendo.

An entirely new, hybrid Lattice tweeter uses a novel airframe in a specially-selected aerospace alloy, machined by YG Acoustics. It delivers exceptionally low distortion over a huge bandwidth, with wide angular dispersion to support a large sweet-spot.

Groundbreaking, third-generation Ultracoherent crossovers apply a deep understanding from simulation to deliver performance never before possible.

Our BilletCore drivers use advanced motors and cones machined in-house from solid billet, offering some of the highest performance and lowest distortion in any driver available today.

## SPECIFICATIONS

---

### SPEAKER TYPE

4-way passive floor-standing loudspeaker  
Four tower, dual layer, aerospace aluminum cabinet  
with constrained layer damping

### DRIVERS

Lattice hybrid tweeter with advanced airframe  
Dual 15 cm (6") BilletCore drivers with advanced  
neodymium motor magnets  
Triple 18.5 cm (7.25") BilletCore drivers with advanced  
neodymium motor magnets  
Quad 26 cm (10.25") BilletCore drivers with ultra-high  
field strength motor

### CROSSOVER

Ultracoherent crossovers at 90 Hz, 360 Hz and 1.85 kHz  
Optimized for frequency response, phase alignment,  
phase slope and transient response  
Custom capacitors, including pure metal foil models  
Exceptional components such as manganin foil  
resistors, resonance-damped inductors, silver gold  
alloy capacitors and OFC copper ribbon inductors  
Custom, anti-resonance PCB with low dielectric  
constant and dissipation factor, with computationally  
optimized layouts minimizing component interactions

### RESPONSE

Usable output extends from below 20 Hz to 40 kHz  
Exceptionally low distortion throughout range  
Excellent pair matching

### SENSITIVITY

88 dB

### IMPEDANCE

4 Ohms average  
3 Ohms minimum

### DIMENSIONS

Main towers:  
179 × 43 × 72 cm [70 × 17 × 28"] H × W × D  
Bass towers:  
179 × 47 × 72 cm [70 × 18.5 × 28"] H × W × D

### WEIGHT

225 kg [495 lbs] per main tower unpacked  
188 kg [414 lbs] per bass tower unpacked

### FINISHES

Standard finishes are silver and black  
Please contact your dealer for other finish

## YG ACOUSTICS

---

Founded in 2002, YG Acoustics is recognized as one of the leading manufacturers in the high-end audio industry. Everyone at YG loves music and our loudspeakers reflect our passion. They provide the most accurate, most musical performance possible today.

Our drive to recreate the emotional magic of a live performance constantly inspires us to push the boundaries of audio technology. Over the years, our journey has led us to many proprietary innovations in design, materials and manufacturing.

More importantly, our speakers provide the clearest of windows into the performance. They communicate every nuance of emotion, every musical cue from the tiniest micro-detail through to the physical impact of the most thunderous crescendo. At YG we are lucky enough to hear our speakers every day. They can bring tears to our eyes or leave us with ear-to-ear grins that last the whole day. We hope you like them as much as we do.

Please note that at YG we are constantly updating our products. All specifications and finishes are indicative and subject to change.
