

YG ACOUSTICS

DESCENT

The Peaks series includes five new speaker models plus a powered subwoofer, each performing at a new reference level for their price point. They excel in any size room, across all genres of music, and are offered in high quality finishes to suit every style of home.

Descent is an active, DSP-powered subwoofer providing the very highest musical performance possible. A top tier 1000 W full frequency amplifier drives an entirely new, 28 cm (11") BilletCore driver with a 7.5 cm (3") voice coil, titanium former and advanced magnet structure.

Effortless dynamics and incredible musicality extend to the deepest bass registers, recreating not only the lowest bass notes but the illusive sense of hall acoustic that only the finest subwoofers can offer.

Descent's custom, aluminum-cone driver is mounted in a thick aluminum front baffle, precision machined in-house to a profile guided by detailed computational modeling.

The sealed cabinet body is exceptionally massive, made from heavily-braced, inch-thick dense resin fiber, curved to exact tolerances in custom presses by experienced workshops.

The DSP filters are based on advanced computational modeling, state-of-the-art measurements and extensive listening tests, with preset frequency and phase curves to accompany stand-mount and floor-standing speakers as well as an AV setting.

These filters make placement as easy as possible, precisely matching the phase curve and roll-off from the Peaks stand-mount and floor-standing models.

Through its unique combination of cutting-edge science and engineering, Descent represents an approach with no compromises. Everything from the driver, cabinet and amplifier, through to the veneer, lacquer and internal cabling has been carefully selected and modeled to deliver the most accurate, most musical performance possible.

SPECIFICATIONS

SPEAKER TYPE

Active subwoofer with DSP filter

DRIVERS

28 cm (11") BilletCore driver with 75 mm (3") voice coil, titanium former and advanced magnet structure

AMPLIFIER

1,000 W full range audiophile amplifier
0.0018% THD+N at 500 W
124 dB SNR

INPUTS

XLR analogue in
XLR analogue through
RCA analogue in left
RCA analogue in right
High level input

HIGH LEVEL INPUT

High level input L/R
Phoenix contact MSTB 2,5/ 4-ST-5,08
Maximum input level: 50 Vrms

INPUT IMPEDANCE

2.2 MOhms (XLR)
54 kOhms (RCA)

RESPONSE

18 Hz – 150 Hz

DIMENSIONS

44.5 x 40 x 47.5 cm (H x W x D)
17.5 x 15.7 x 18.7" (H x W x D)

WEIGHT

50 kg per speaker
110 lbs per speaker

FINISHES

Ebony

Rosewood

Oak

YG ACOUSTICS

Founded in 2002, YG Acoustics is recognized as one of the leading manufacturers in the high-end audio industry. Everyone at YG loves music and our loudspeakers reflect our passion. They provide the most accurate, most musical performance possible today.

Our drive to recreate the emotional magic of a live performance constantly inspires us to push the boundaries of audio technology. Over the years, our journey has led us to many proprietary innovations in design, materials and manufacturing.

More importantly, our speakers provide the clearest of windows into the performance. They communicate every nuance of emotion, every musical cue from the tiniest micro-detail through to the physical impact of the most thunderous crescendo. At YG we are lucky enough to hear our speakers every day. They can bring tears to our eyes or leave us with ear-to-ear grins that last the whole day. We hope you like them as much as we do.

Please note that at YG we are constantly updating our products. All specifications and finishes are indicative and subject to change.
